DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/13/2006 has been entered.

Claim Objections

2. Claims 1, 6, 14-15, 16-19 are objected to because of the following informalities:
- Claim 1 (line 8), claim 16 (line 2), "a orientation" should be changed to --an orientation--.
- Claim 1 (lines 10, 12), "a orientation" should be changed to --the orientation--.
- Claim 1 (line 11), claim 15 (line 3), "an image" should be changed to --the image--.
- Claim 6 (line 2), "the subjects is" should be changed to --the subject is--.
- Claim 6 (lines 4, 7), "an orientation" should be changed to --the orientation--.
- Claim 6 (line 4), "the images" should be changed to --the image--.
- Claim 6 (line 6), claim 19 (line 4), "an image" should be changed to --the image--.
- Claim 17 (lines 1-2), "the subjects is" should be changed to --the subject is--.
- Claims 6, 14-15 are objected as being dependent on claim 1.
- Claims 17-19 are objected as being dependent on claim 16.

Art Unit: 2622

Claims 3-5, 7-8, 10, 11, 13 should be canceled since these claims read on non-elected species.

Appropriate correction is required.

Drawings

3. The drawings are objected to because:

In the Replacement sheet of figure 13 filed on 12/27/2005, the arrow indicates the process from step S105 (NO) goes back to a point between step S103 and step S104 should be changed to a point before the step of S103 (a point between step S102 and step S103). Note that the specification, page 27, paragraph [0094] states that step S105 determines whether a face is in the specified orientation or not; when such a face is absent, the process returns to step S103.

In the Replacement sheet of figure 14 filed on 12/27/2005, in step S206, "faces is the specified orientation" should be changed to --faces in the specified orientation--.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the

Art Unit: 2622

renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

4. Claims 1, 6, 14-15, 16-19 are allowed.

The following is a statement of reasons for indication of allowable subject matter:

Regarding claim 1, the prior art of the record fails to show or fairly suggest an image extracting apparatus comprising a specifying device for specifying an orientation of the subject for searching an image including the subject in the specified orientation; a determining device for determining a orientation of the subject in the images contained in the image database; a searching device for searching an image including the subject in the specified orientation based on a result of the determining a orientation of the determining device.

Claims 6, 14-15 are allowable for the reason given in claim 1.

Claim 16 is a method claim of apparatus claim 1, therefore, claim 16 is allowable for the reason given in claim 1.

Claims 17-19 are allowable for the reason given in claim 16.

Conclusion

5. This application is in condition for allowance except for the objection of claims 1, 3-8, 10-11, 13-19 as indicated above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
